The ViuLite® SL20B insulating glass units are manufactured in accordance with high technical specifications and production standards. The slat tilting only function is achieved using rotational magnetic transmission through the glass thereby guaranteeing the unit's hermetic seal.

**Slat**
Aluminum, AA 6011-T8 alloy. Dimensions: width 1/2" (12.5mm), thickness 0.2mm. High-resistance polyester paint. The slats have a special treatment designed to eliminate possible emissions of chemical products inside the insulated glass unit, when exposed to ultraviolet and heat radiation i.e. non-fogging.

**Internal cords**
Thermo-fixed 100% polyester with internal core and excellent dimensional stability.

*Frame not included (for illustration purposes only)*
VIULITE® SL20B

KNOB

OPERATOR: KNOB - (MOUNTED ON BOTTOM RAIL)
SLAT OPERATION: TILT-ONLY
AIR SPACE: 27/32" (21.4mm)  □ ARGON  □ AIR
SLAT WIDTH: 1/2" (12.5mm)
SLAT COLOR:

□ S102 WHITE
□ S157 SILVER
□ S125 BEIGE

SPACER: ALUMINUM
OPERATOR COLOR:

□ WHITE
□ LIGHT GRAY
